

Installation Guide

Fit Screen size 40"-65" 2TVs

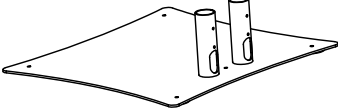

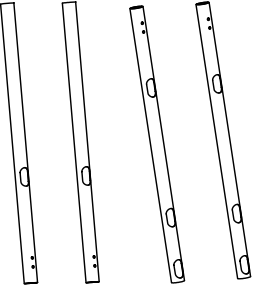

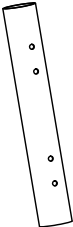

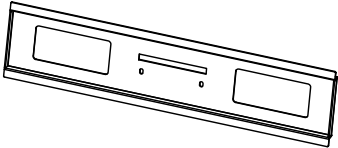

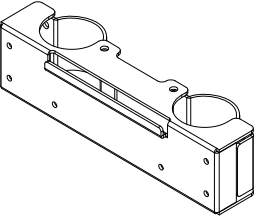

VESA 100x100-600x400

Load Capacity: 200lbs(90kg)

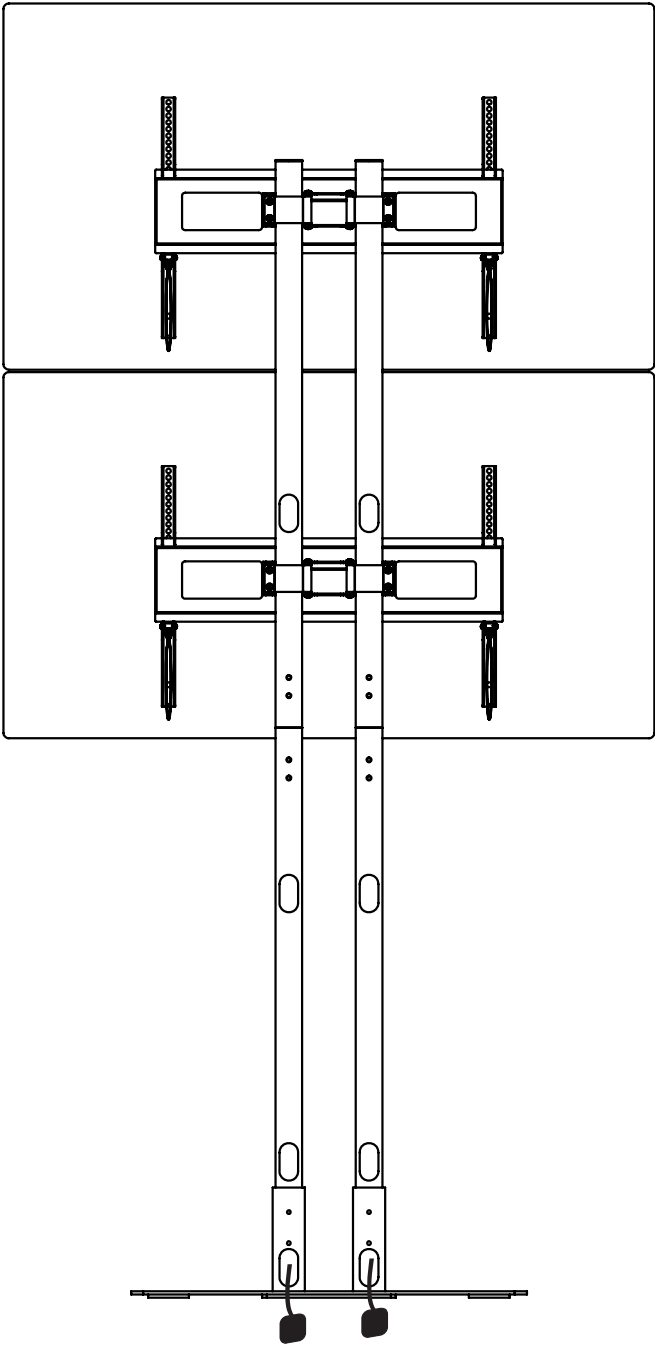

Intergrated Cable Management

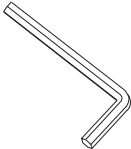

All Hardware Included

Parts List

 A1x1	 B1x1 B2x1 C1x1 C2x1	 Dx2
 x2	 x4	 x2

Step 4: Cable Management

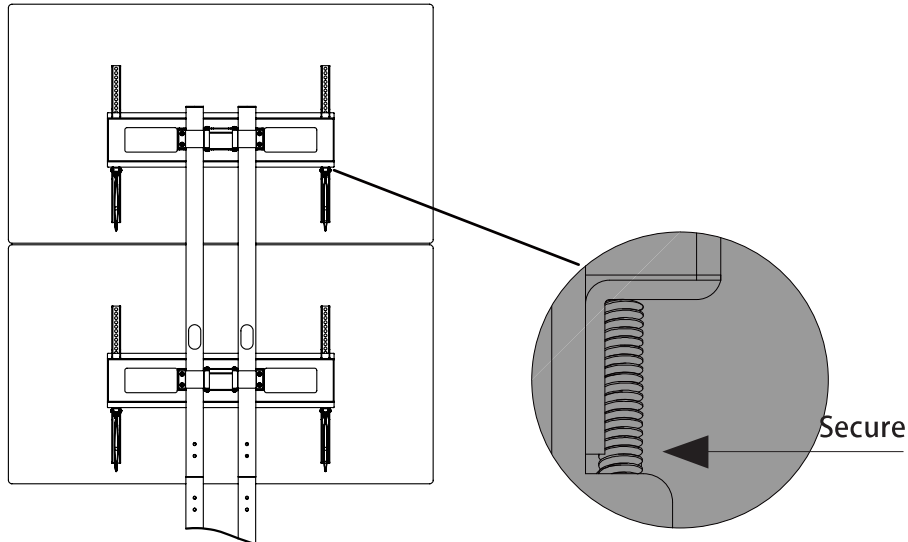

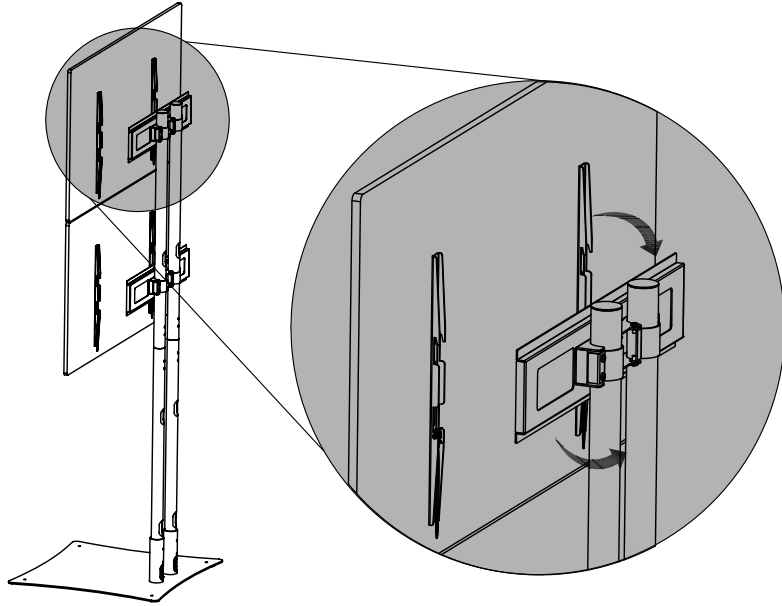

- **x8**
A: M8 x 25mm Bolt
- **x8**
B: M6 x 25mm Bolt
- **x8**
C: M5 x 25mm Bolt
- **x8**
D: Washer
- **x8**
E: 10mm
- **x12**
F: M8 x 12mm Bolt
- **x4**
G: M6 x 10mm Bolt
- **F: M5**

3. Use two people to lift the TV into position and hook the TV brackets onto the TV plate.

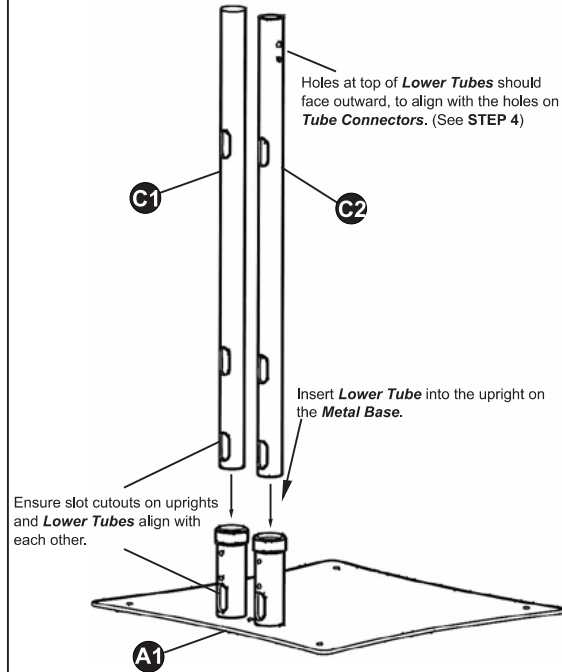

Note: Hang the lower TV first, then the upper one. It could be difficult to hang the lower TV last as there might not be enough room.

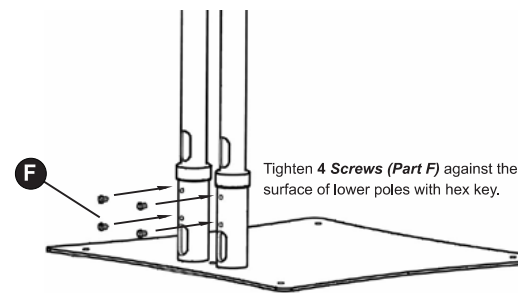

Step 1: Assemble the base with tubes

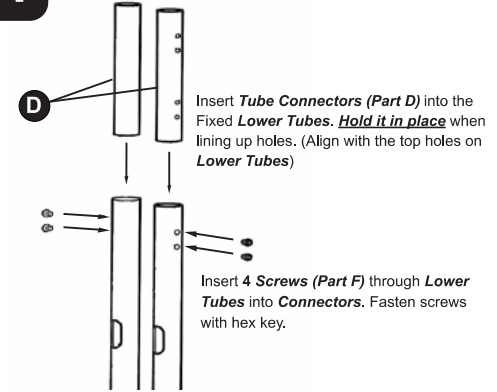

2 Before assembling, remove packing materials. Carefully place the **Metal Base (Part A1)** on a hard, flat ground.

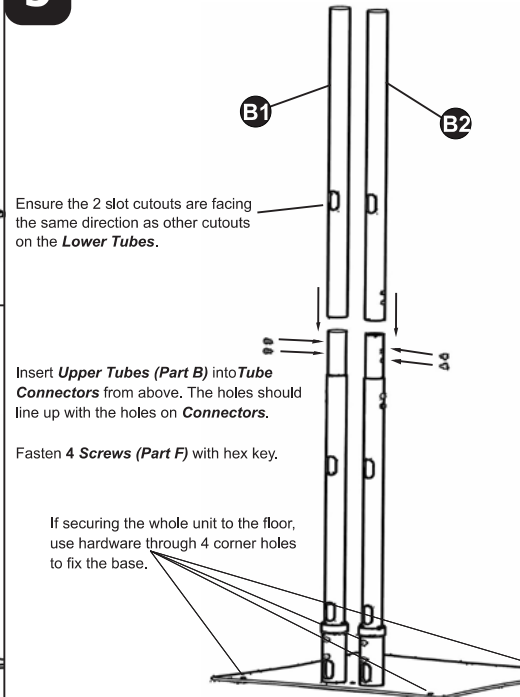

3 Fix **Lower Tubes** by tightening **4 screws** at bottom of the TV Stand.

4 Fix **Tube Connector (Part D)** on top of the **Lower Tube**.

5 Insert **Upper Tubes with Connectors**.

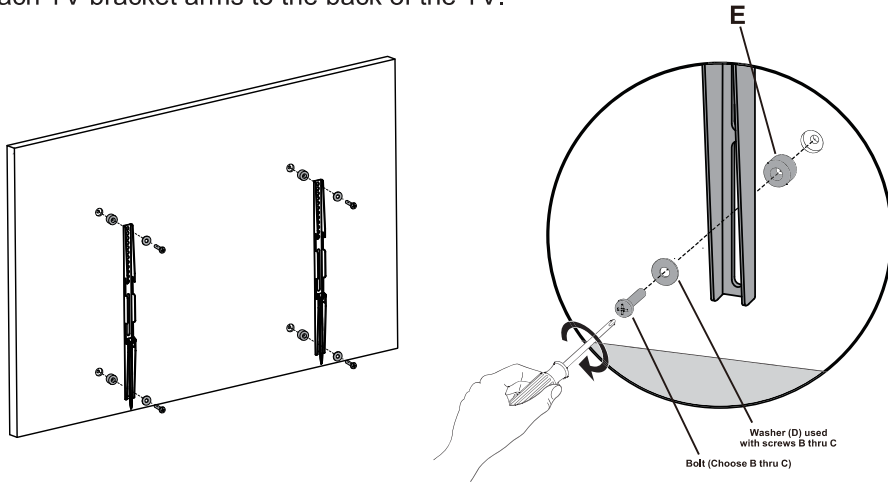

CAUTION: 1. METAL BASE IS HEAVY! AT LEAST 2 PEOPLE SHOULD LIFT/MOVE TO PREVENT ANY PHYSICAL INJURY FROM MISHANDLING.

2. ALWAYS PLACE THE UNIT ON A HARD, FLAT SURFACE. DO NOT PLACE THE UNIT IN WHERE IT MAY BE IMPACTED OR MOVED. FAILURE TO DO SO COULD CAUSE SEVERE BODILY INJURY.

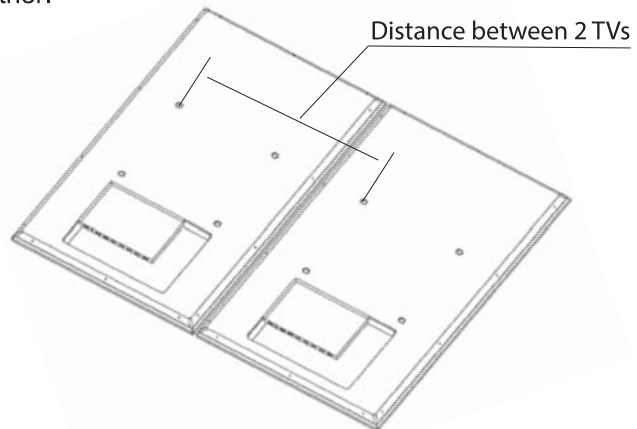

Step 2: Attach TV Bracket

Select the correct diameter bolt and hand thread into the back of the TV to determine the correct length. Use washer(D) for bolt B and C, A(M8) not need washers. If your TV has a curved back or deep recesses, you can use the spacers (E). Attach TV bracket arms to the back of the TV.

Step 3: Attach TV to the Stand

1. Before starting, measure and calculate the minimum distance between 2 TVs while hanging on the stand without interfering with each other.

2. Attach TV Plate to the Stand
