Step 7. Use two people to lift the TV into position and hook the TV brackets onto the TV plate.

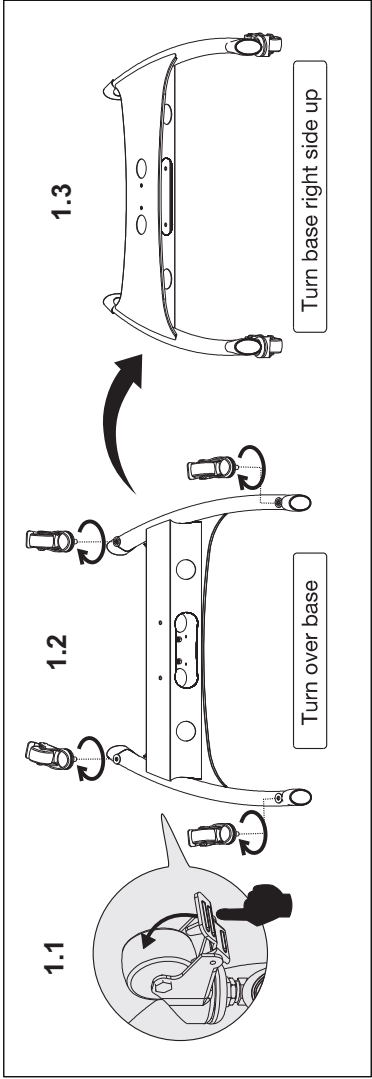

Note: Hang the lower TV first, then the upper one. It could be difficult to hang the lower TV last as there might not be enough room.

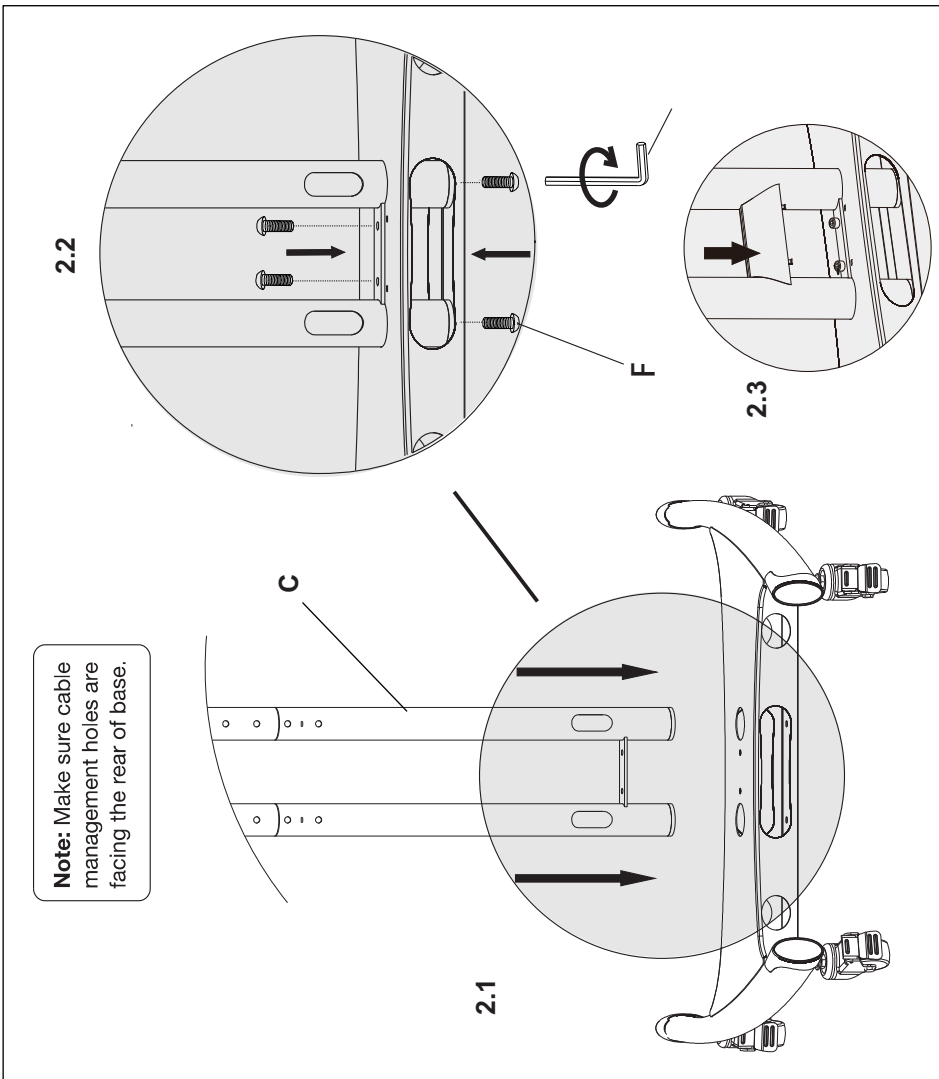

Step 6. Attach TV Plate to the Stand

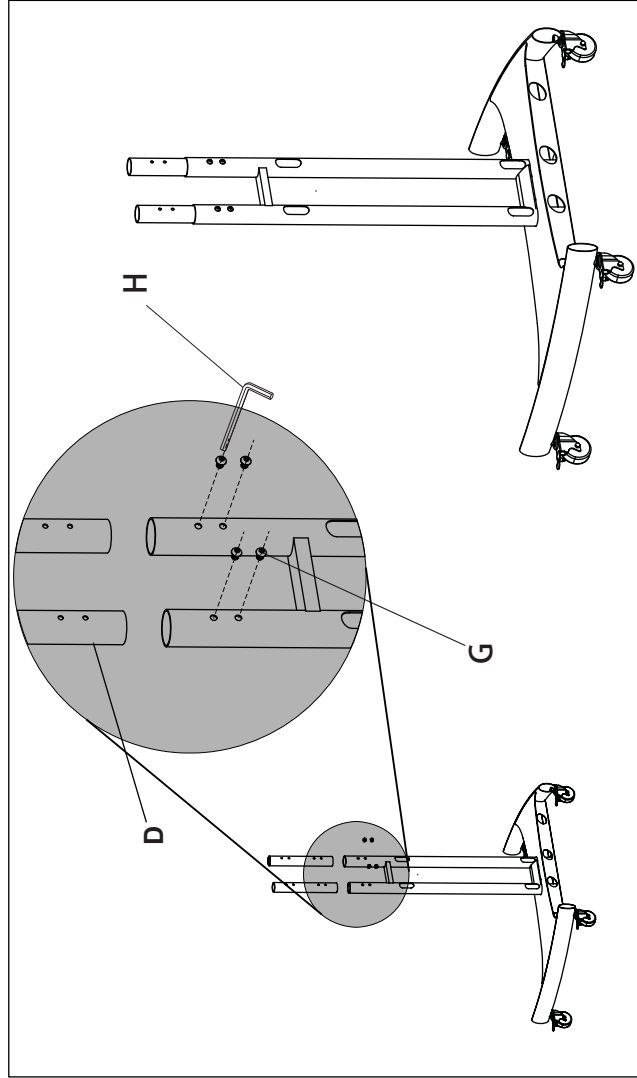

Step 1

Step 2

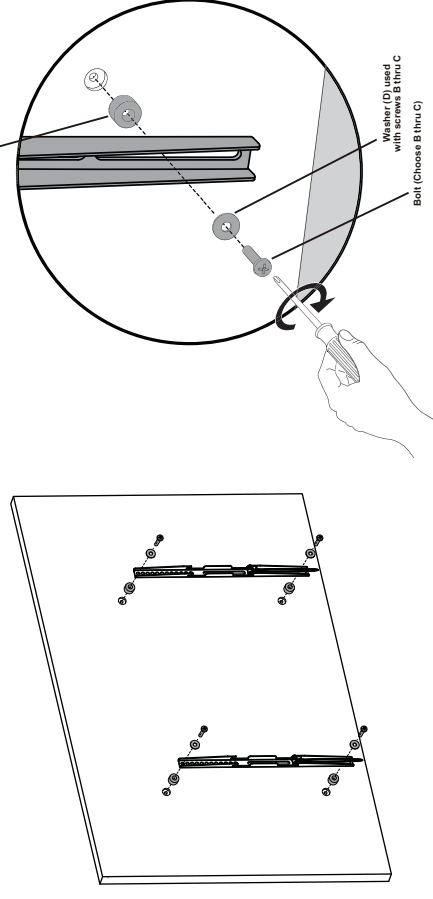

## Step 3

## Step 4: Attach TV Bracket

Select the correct diameter bolt and hand thread into the back of the TV to determine the correct length. Use washer (D) for bolt B and C, A(M8) not need washers. If your TV has a curved back or deep recesses, you can use the spacers (E). Attach TV bracket arms to the back of the TV.

## Step 5: Attach TV to the Stand

1. Before starting, measure and calculate the minimum distance between 2 TVs while hanging on the stand without interfering with each other.
