 **Read the entire instruction manual before you start installation and assembly. If you have any questions regarding any of the instructions or warnings, please contact your local distributor for assistance.**

 CAUTION

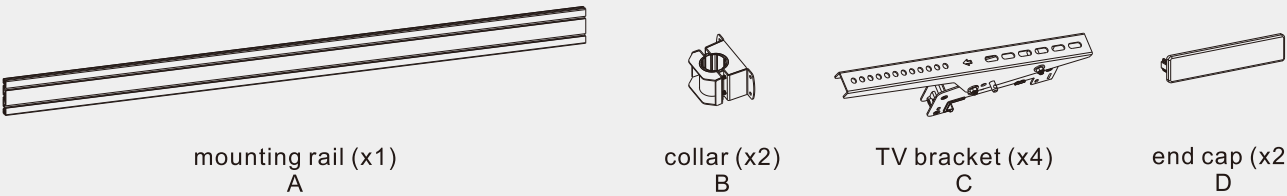

- Use with products heavier than the rated weights indicated may result in instability causing possible injury.
- Please closely follow the assembly instructions. Improper installation may result in damage or serious personal injury.
- Safety gear and proper tools must be used. This product should only be installed by professionals.
- This product is designed to be installed on concrete ceiling only.
- Make sure that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.
- Use the mounting screws provided and **DO NOT OVER TIGHTEN** mounting screws.
- This product contains small items that could be a choking hazard if swallowed. Keep these items away from children.
- This product is intended for indoor use only. Using this product outdoors could lead to product failure and personal injury.

Required for Installation

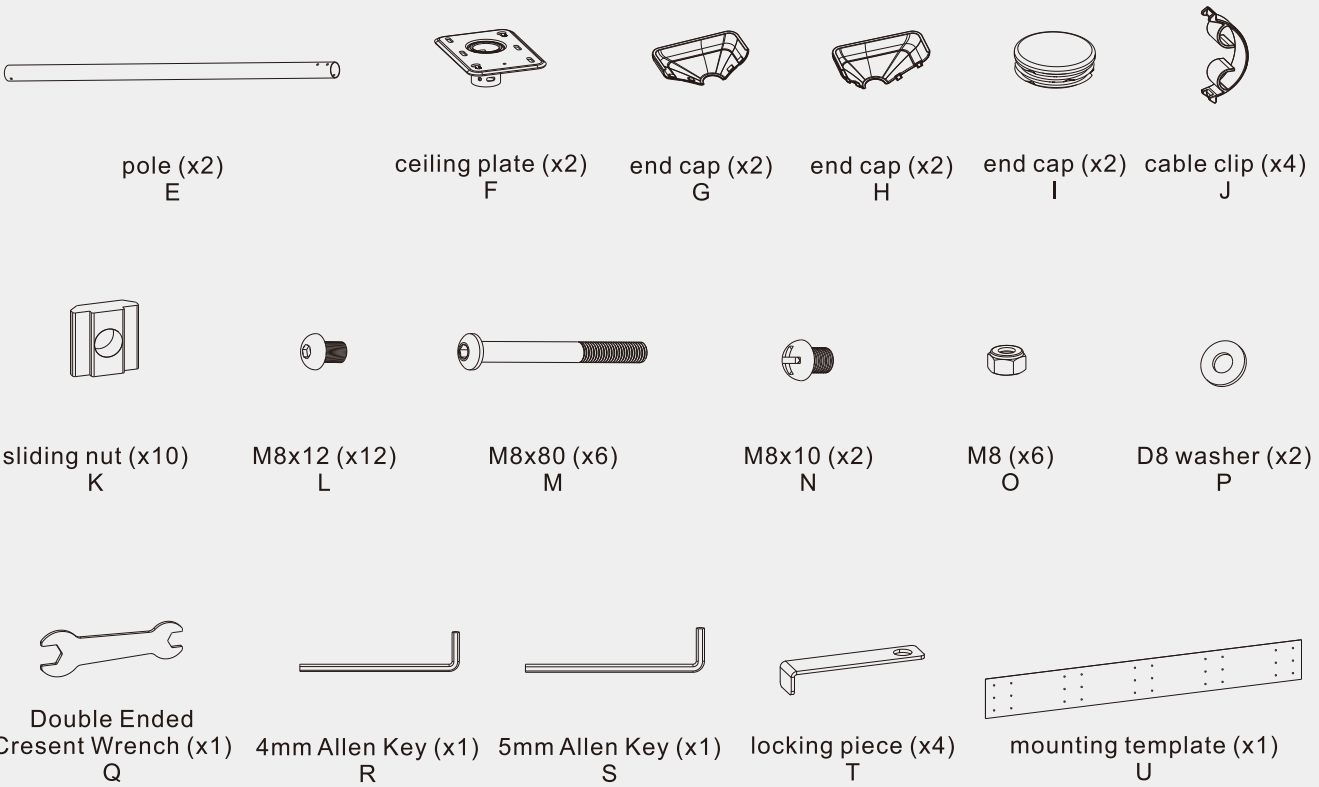

Component Checklist

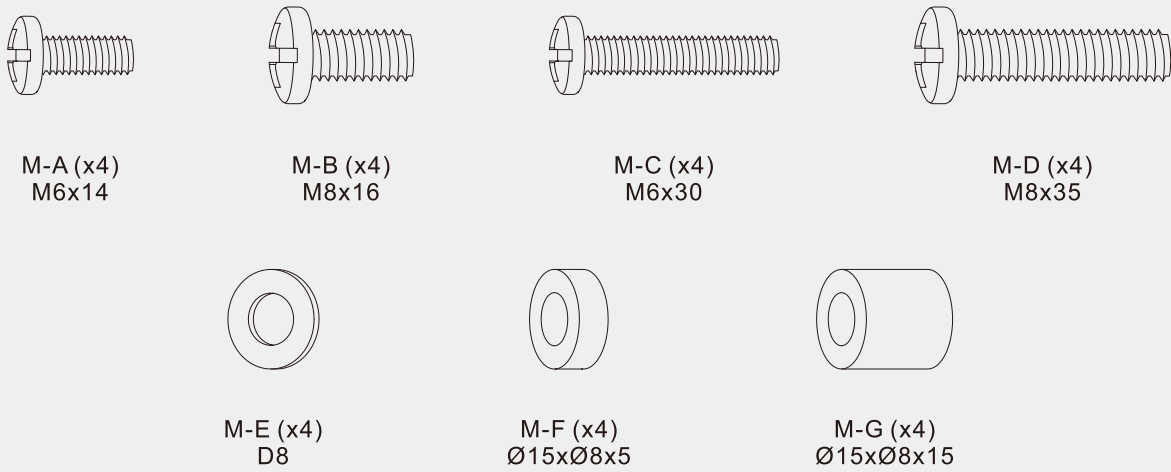

IMPORTANT: Ensure that you have received all parts according to the component checklist prior to installation. If any parts are missing or faulty, contact your place of purchase for a replacement.

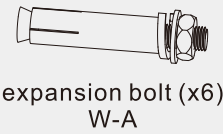

Component Checklist

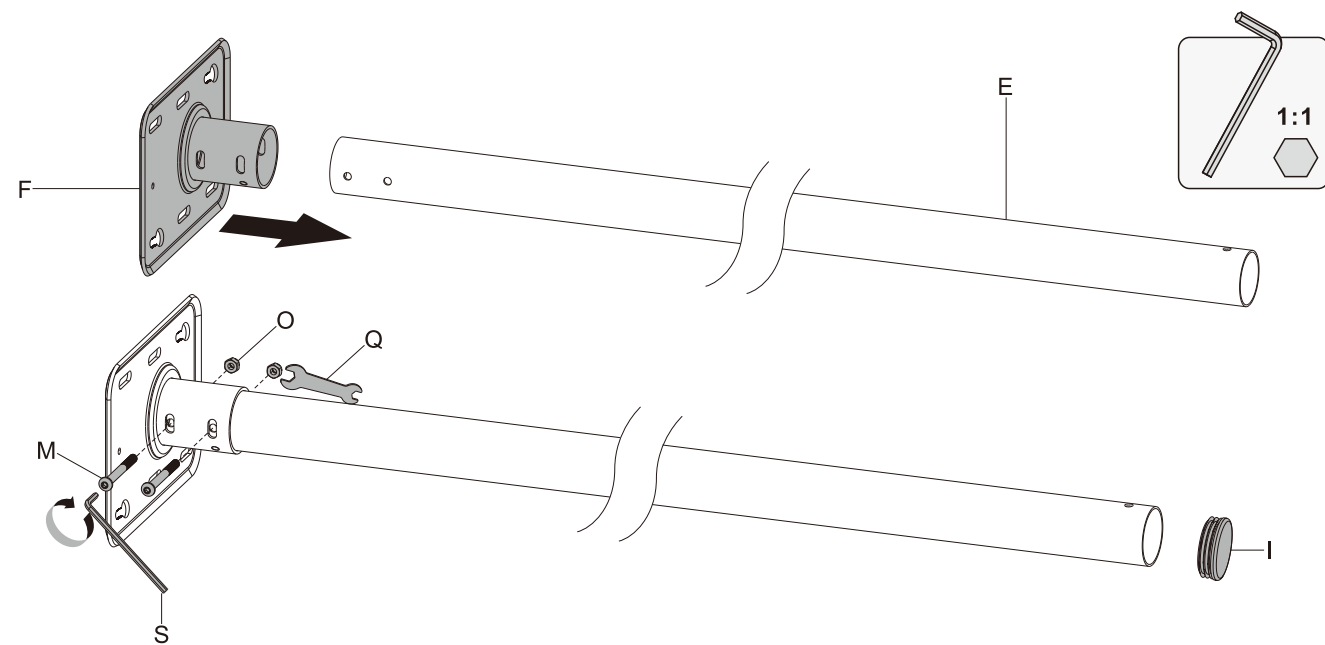

Package M x2

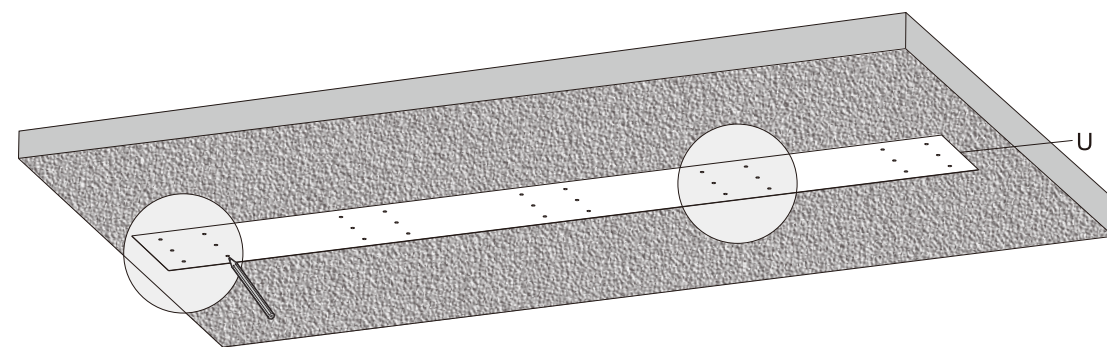

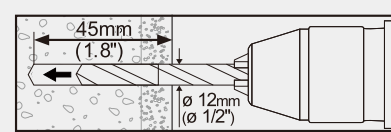

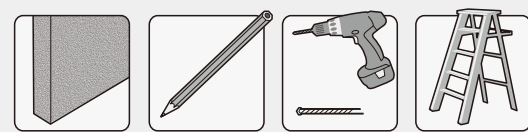

Package W x2

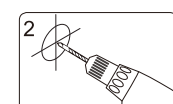

1. Assemble the Pole

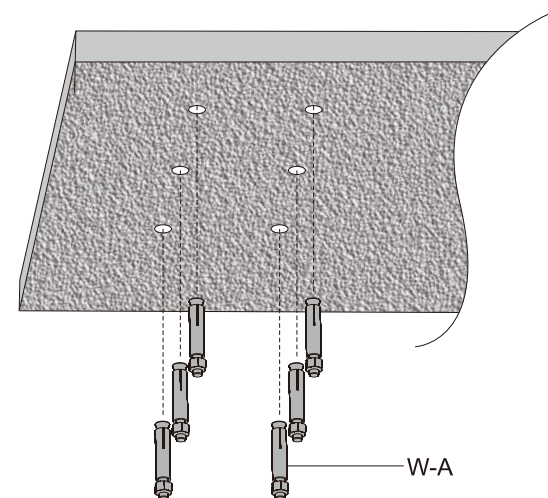

2. Attach Ceiling Plate to the Concrete Ceiling

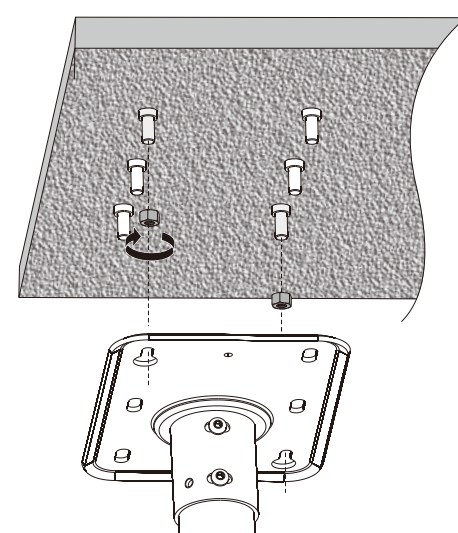

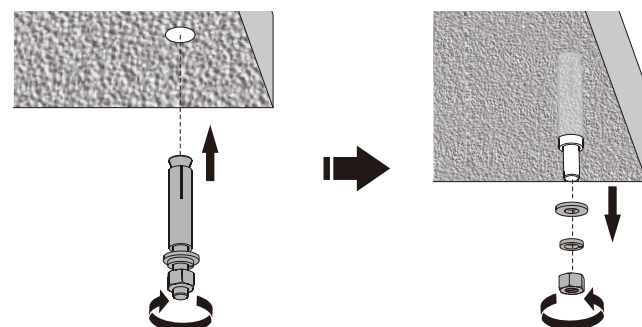

Mark the exact location of mounting holes

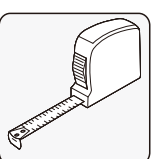

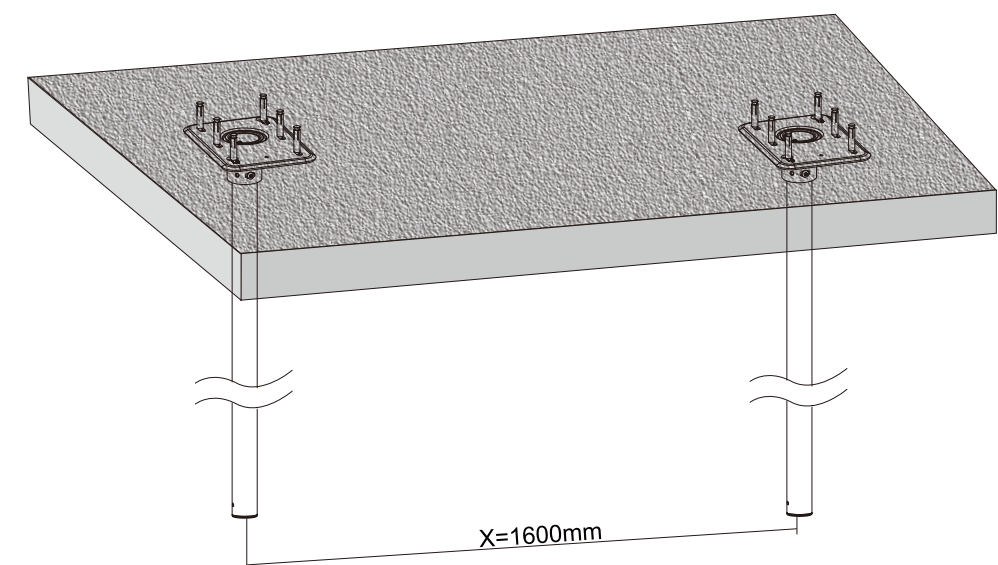

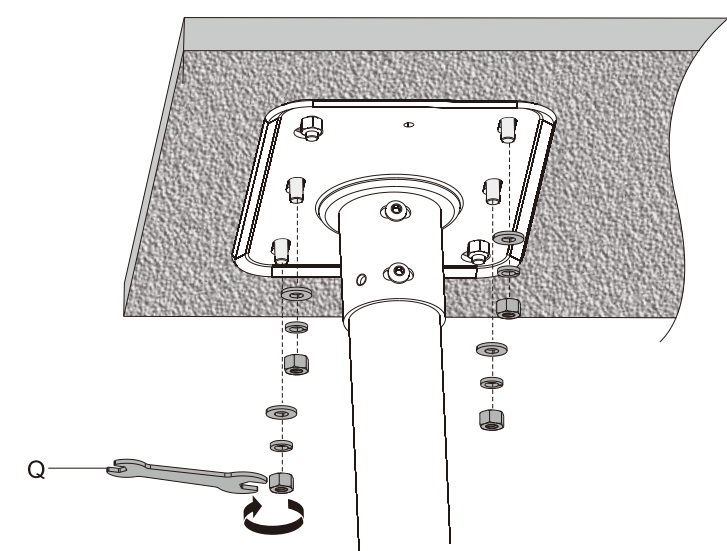

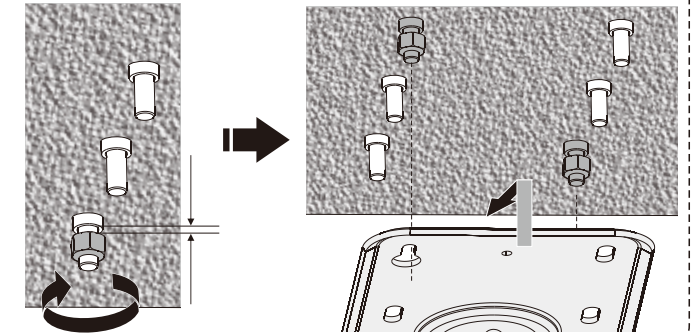

Drill pilot holes

Insert the expansion bolts into the hole as shown. Once inserted, remove the washers and hex nuts.

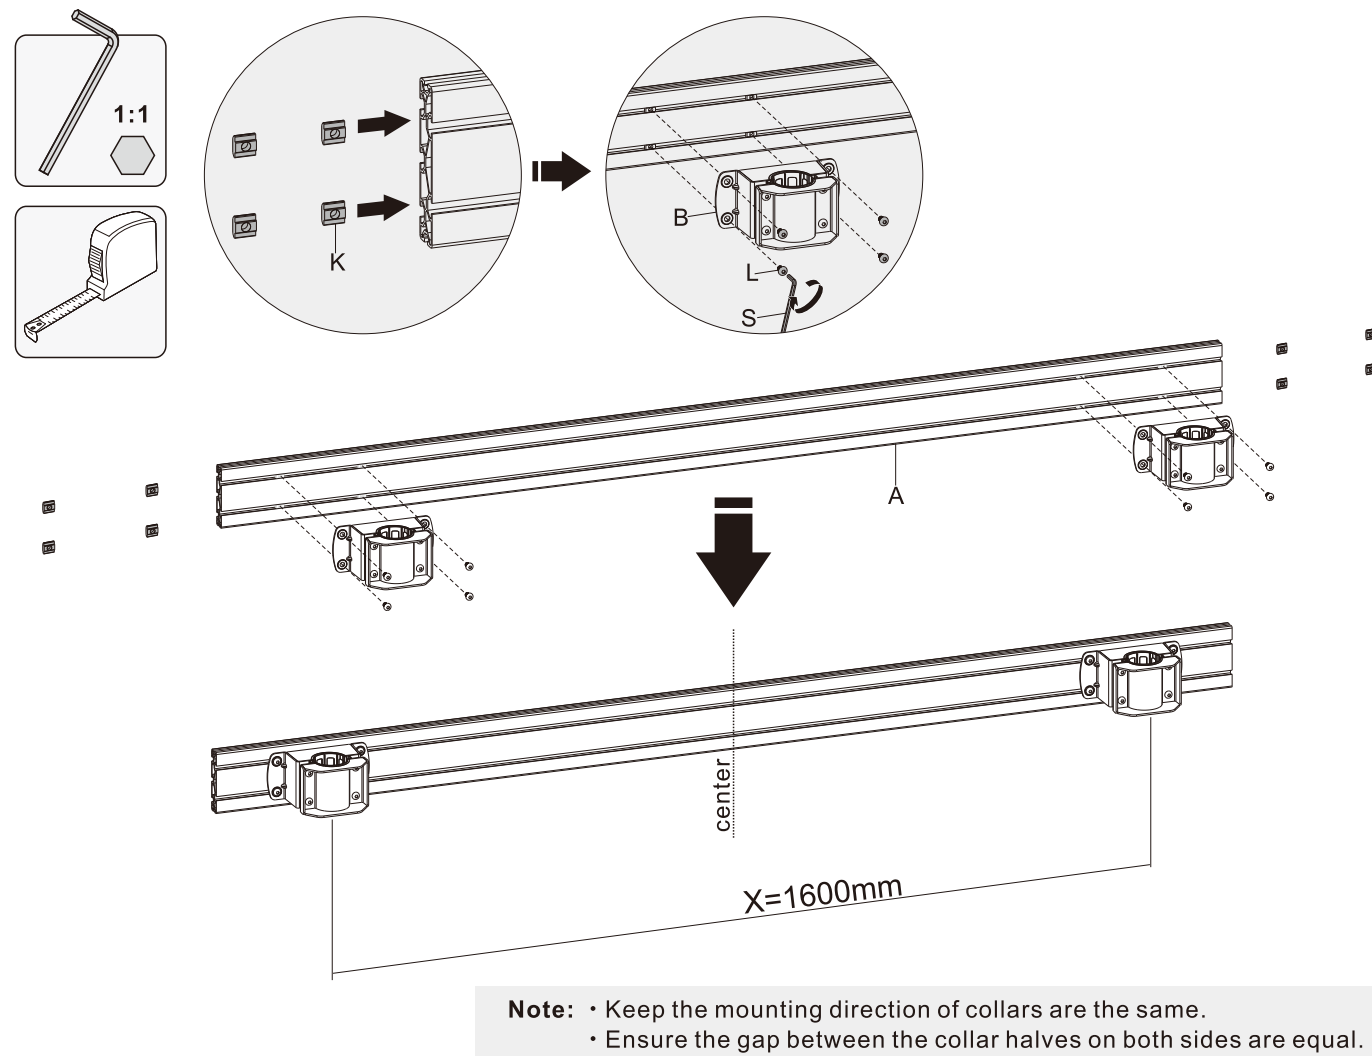

Attach the hex nuts to the expansion bolts corresponding to the keyhole pattern found on the ceiling plate. Do not overtighten and leave a small gap so the ceiling plate will slide into the keyhole slots.

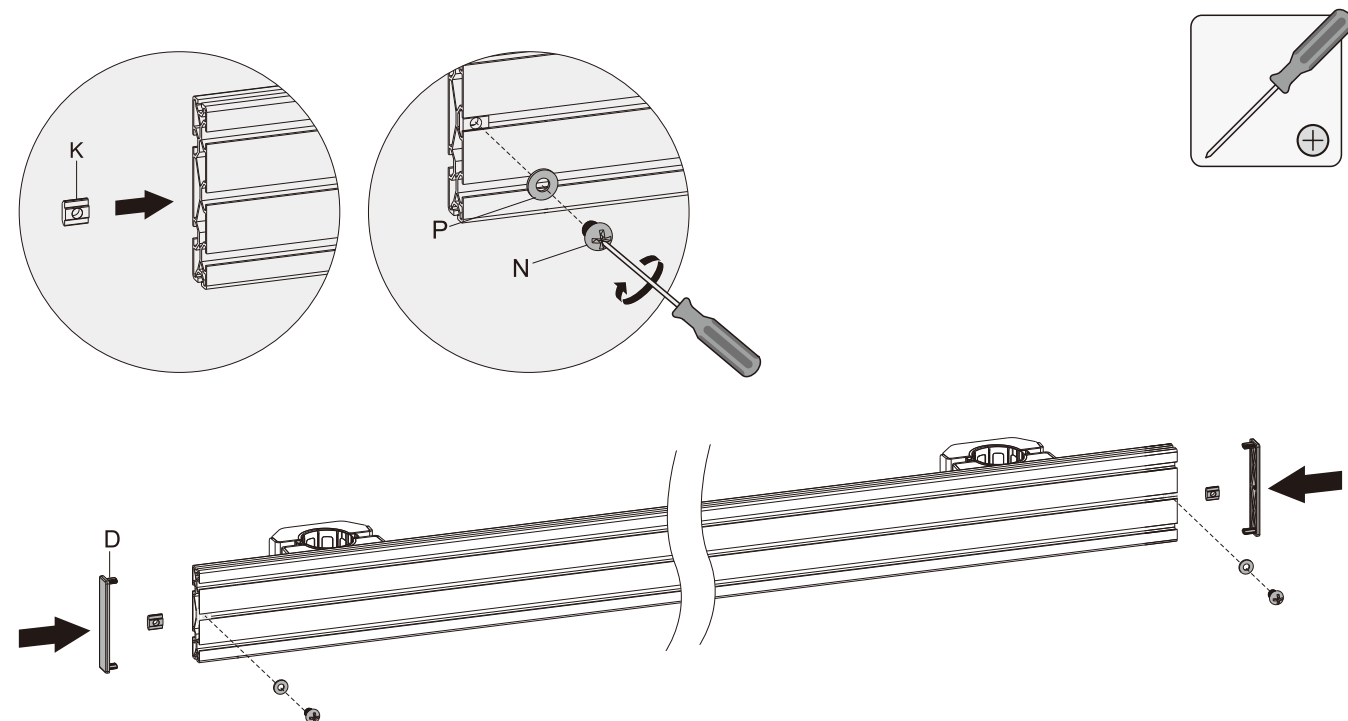

WARNING

Installers must verify that the supporting surface will safely support the combined weight of the equipment and all attached hardware and components.

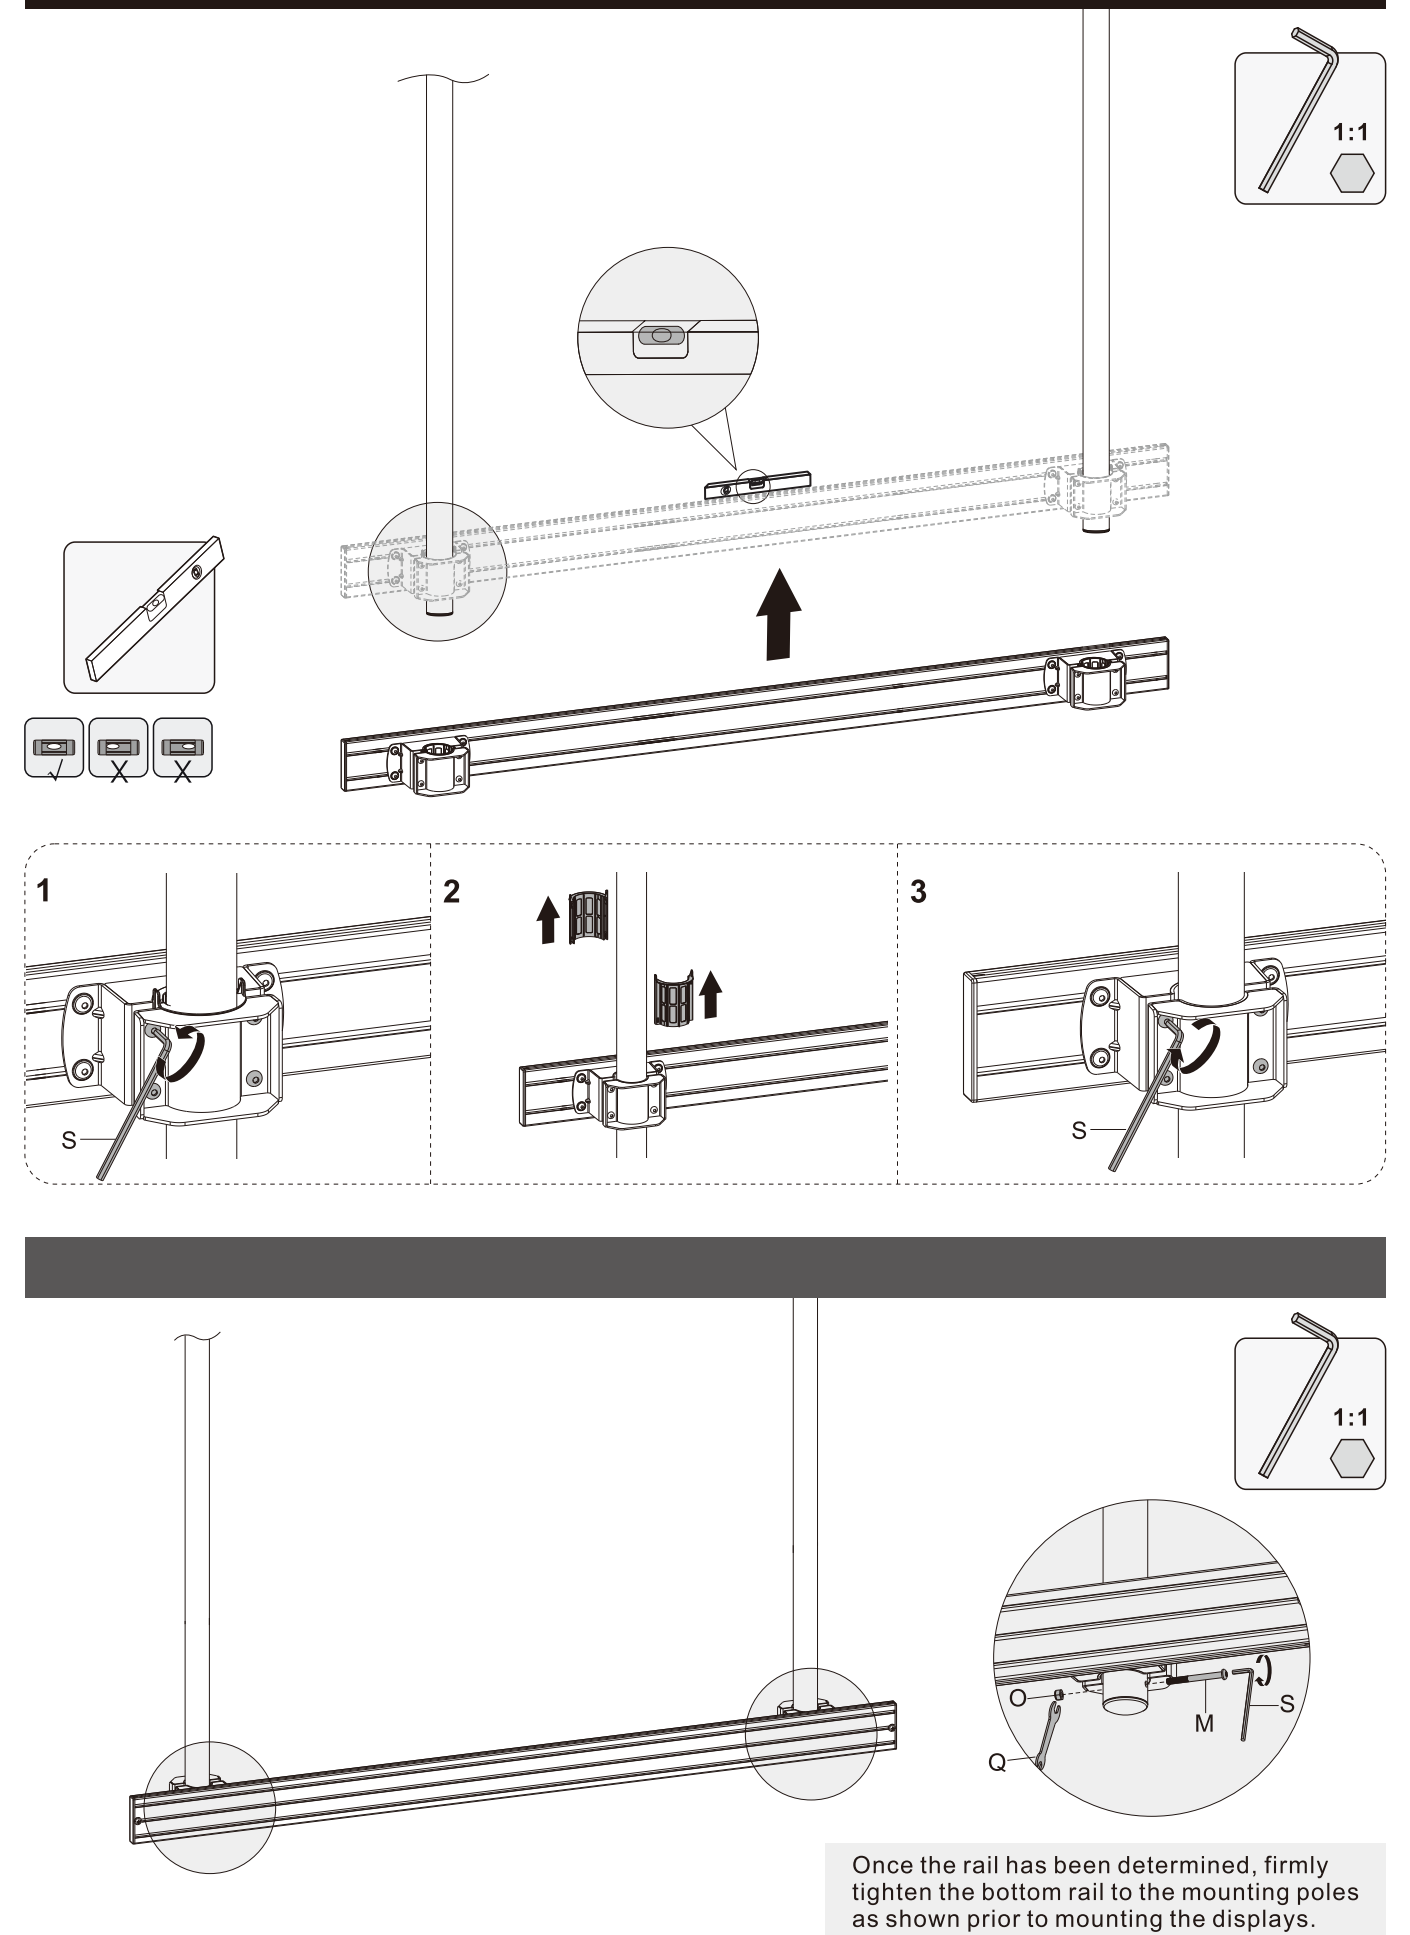

3. Attach Collar to the Mounting Rail

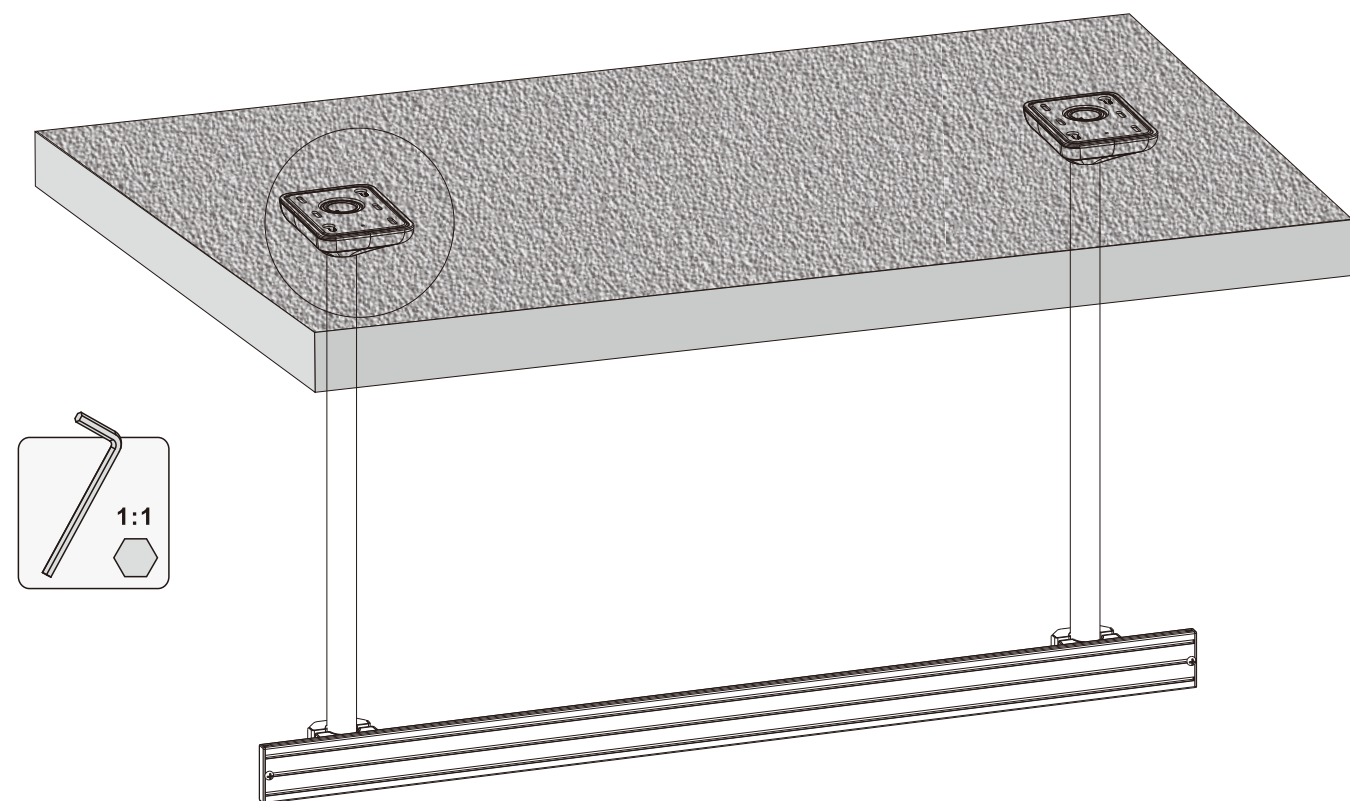

4. Install the End Cap

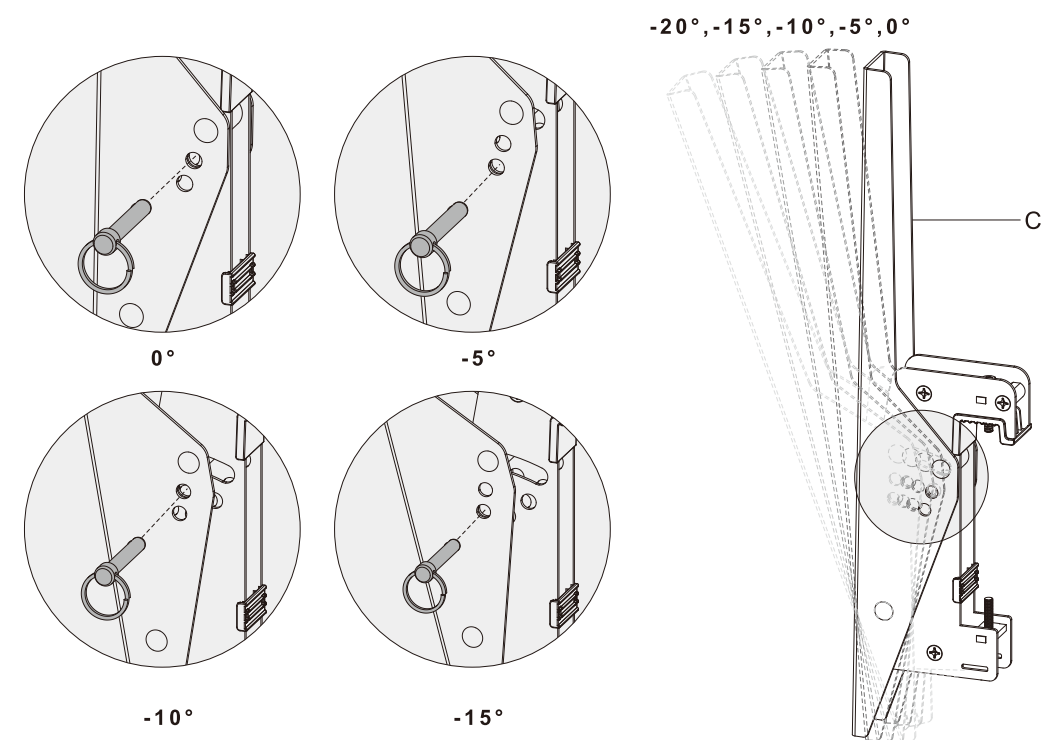

5. Attach Mounting Rail to Pole

6. Install the Plastic Cover

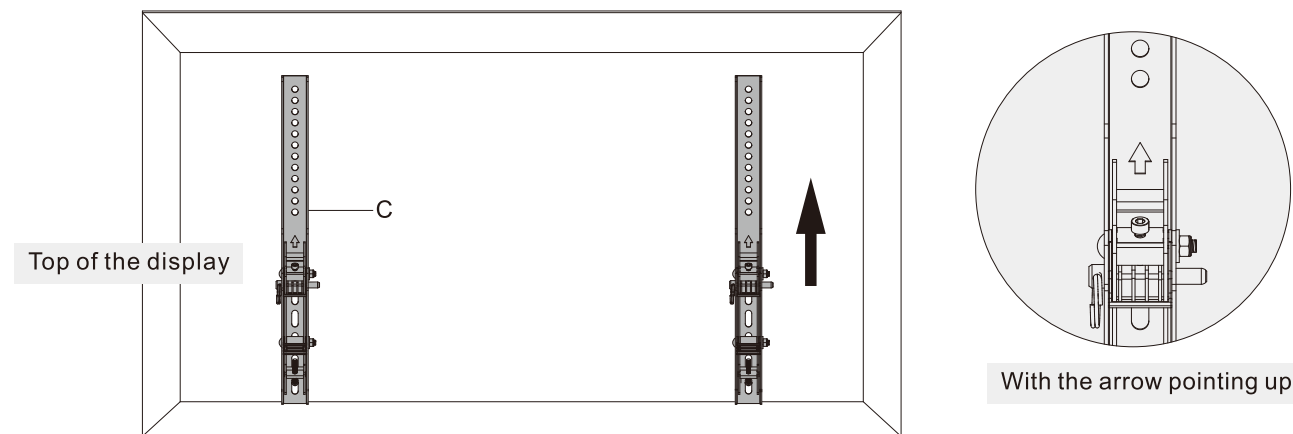

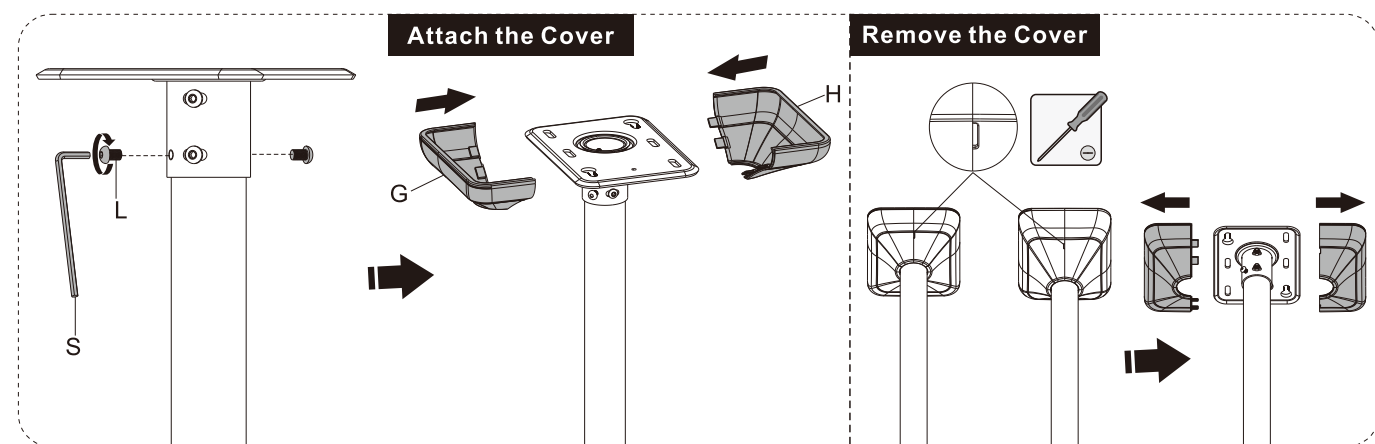

7. Tilt Adjustment

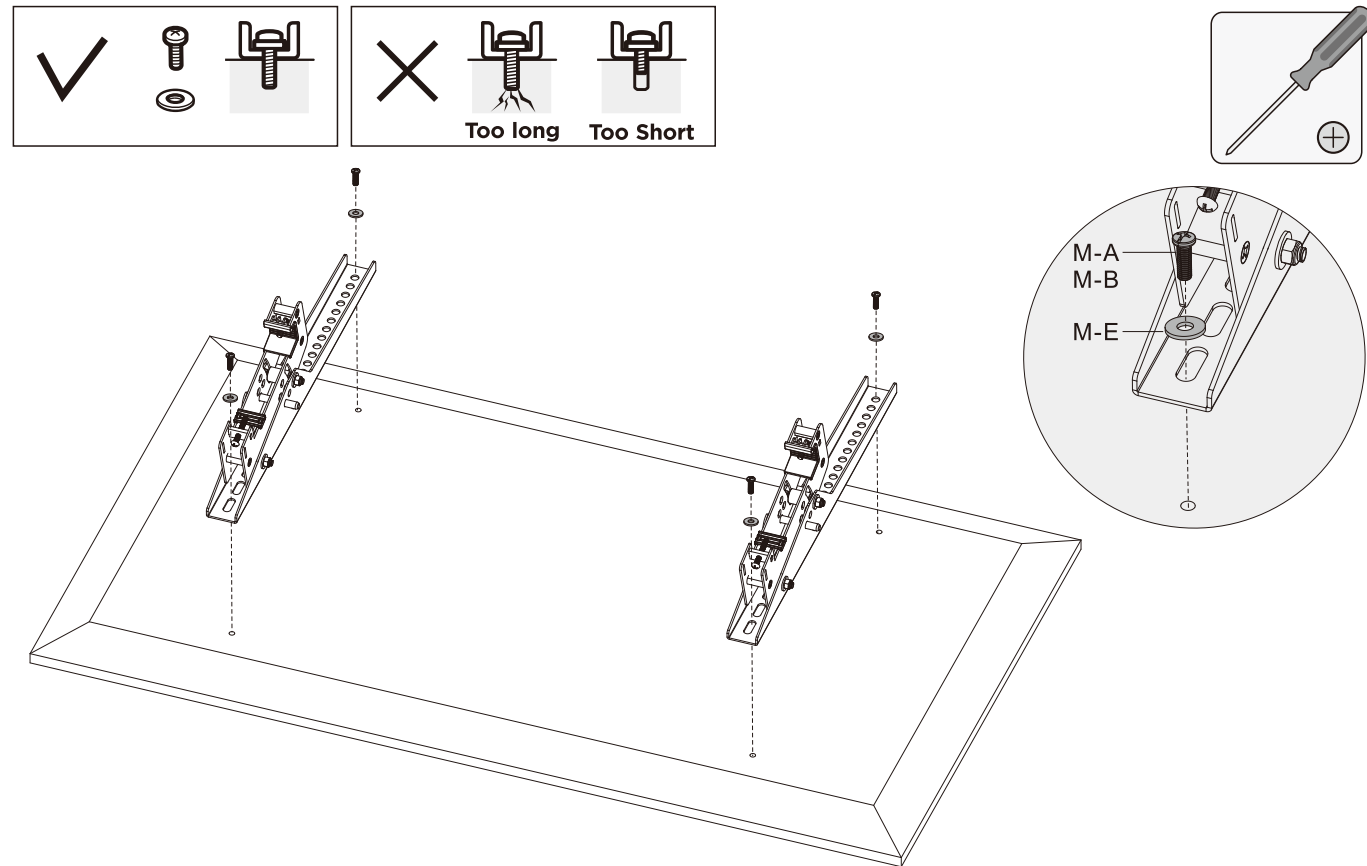

-20° is the natural angle and the safety pin is unnecessary.

8. Attach TV Bracket

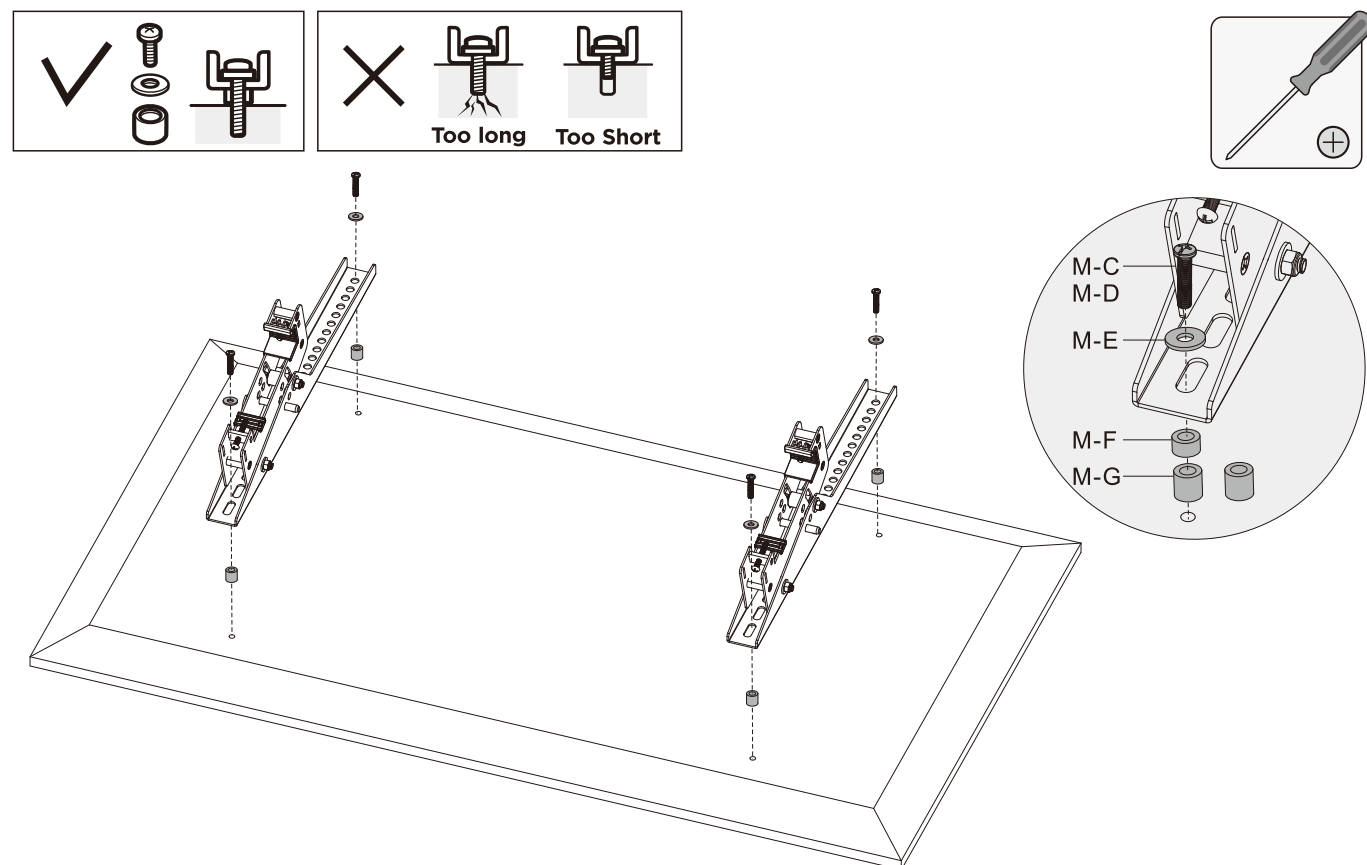

Position the adapter brackets as close as possible to the center of the display.

8a. Attach TV Bracket to Flat Back Screen

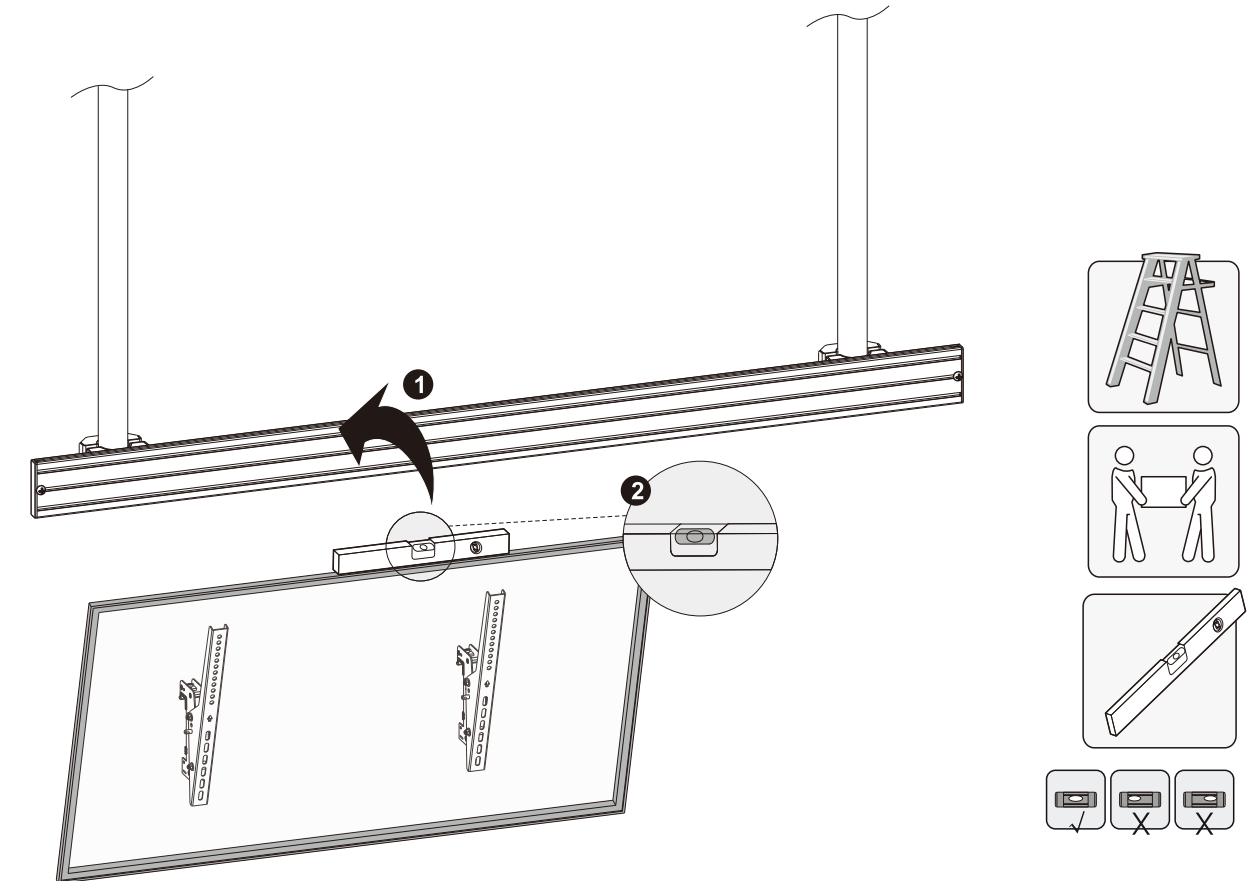

8b. Attach TV Bracket to Irregular Back Screen

Note: Choose the appropriate screws, washers and spacers (if necessary) according to the type of screen.

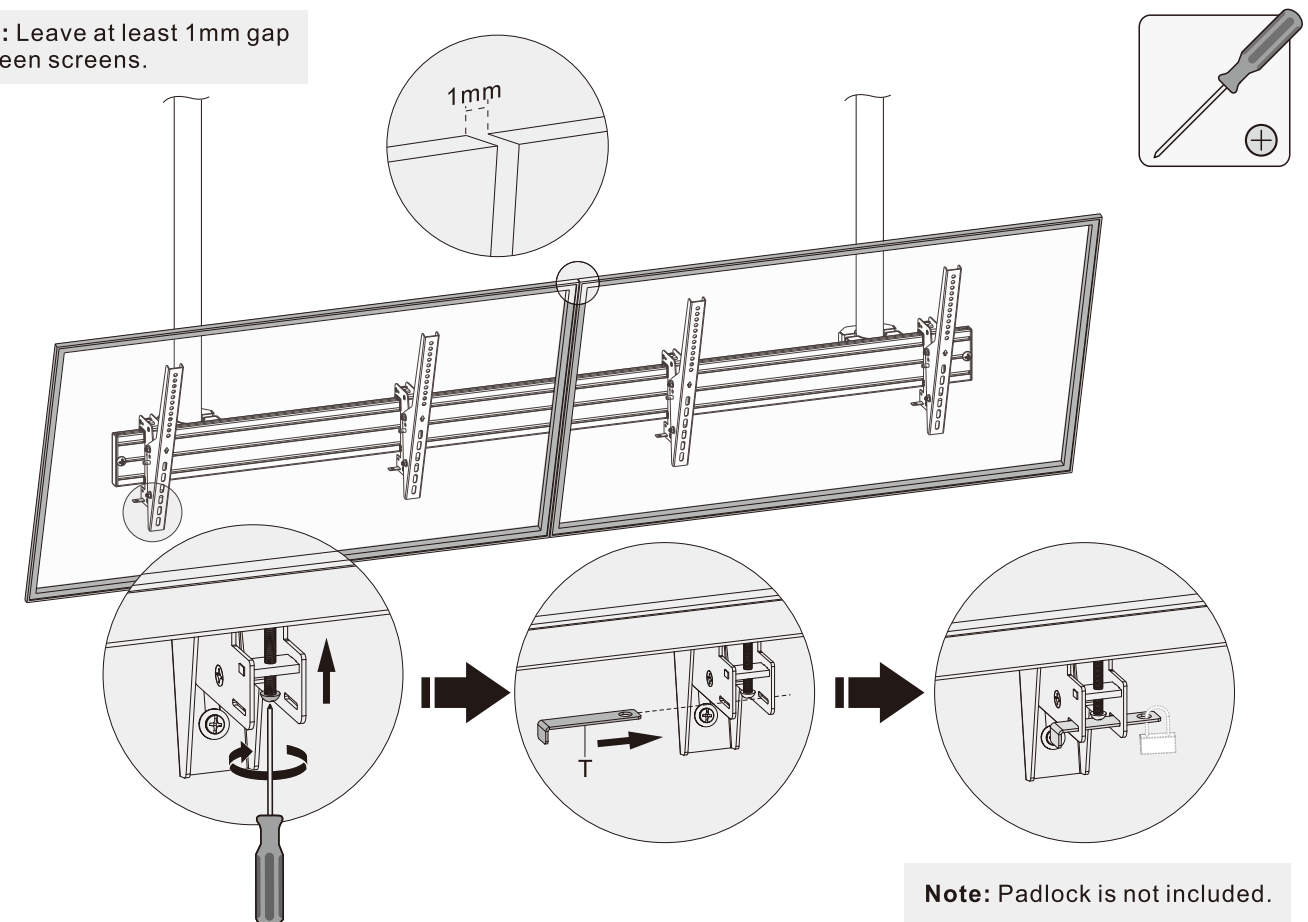

⚠ **Do not overtighten screws.**

9. Hang the Screen

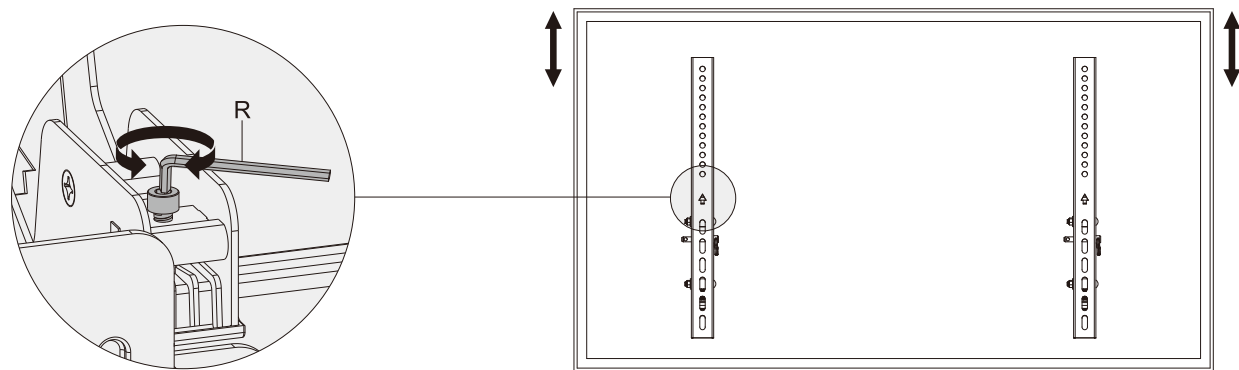

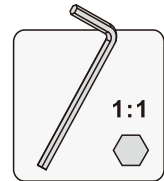

10. Secure with Padlock

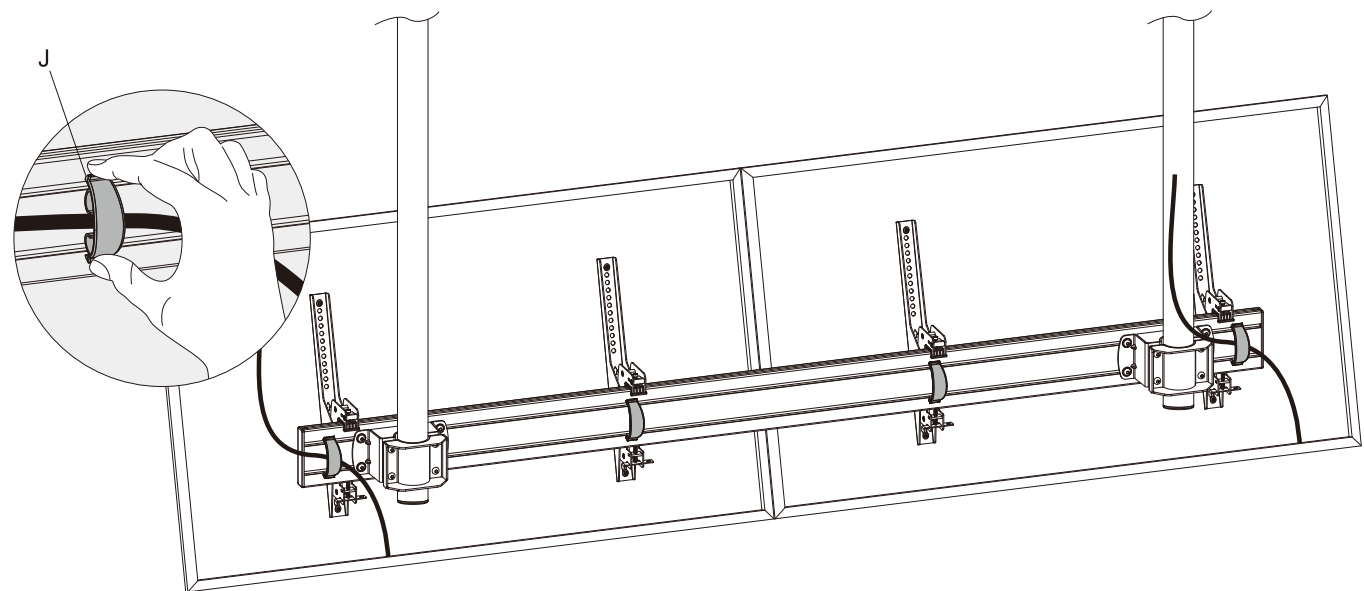

Note: Leave at least 1mm gap between screens.

11. Level Adjustment

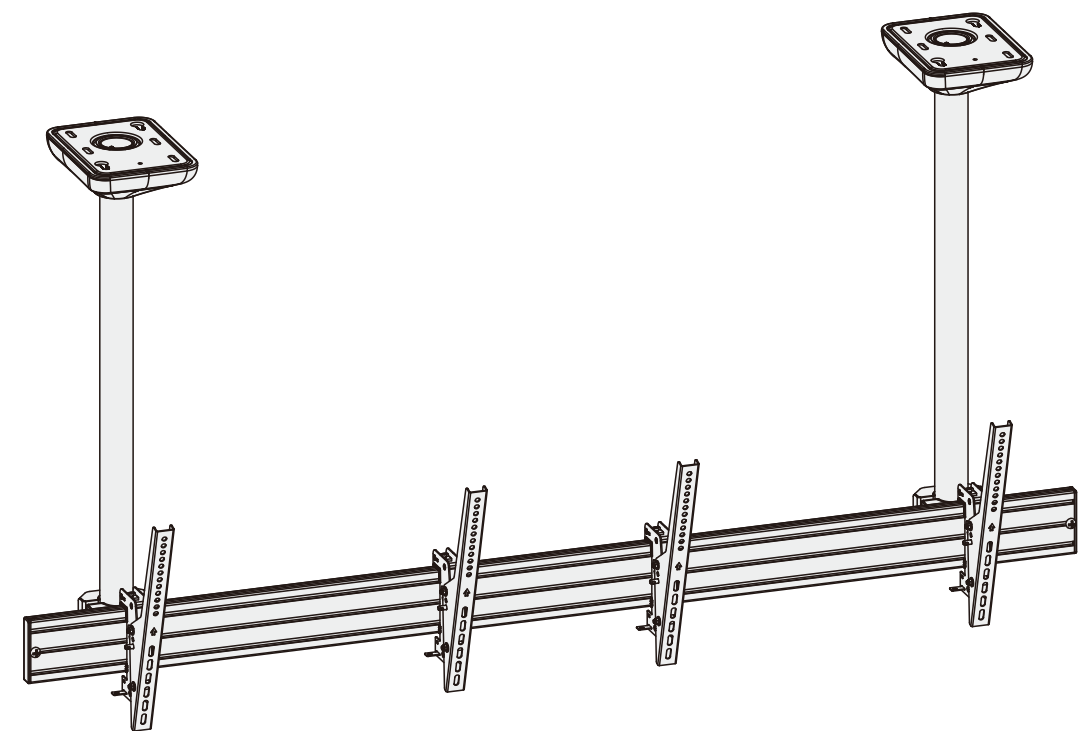

12. Cable Management

Maintenance

- Check that the bracket is secure and safe to use at regular intervals(at least every three months).
